Breed

Grooming Requests:

The person who brings the pet into the grooming department shall be the authorizing agent for all grooming instructions for the pet. The person shall be the witness to the particular cut, any matting, and the current length of hair on the pet. All grooming will include a bath with a hypo-allergenic shampoo to remove any surface debris/hair. Due to the potential risks for skin infections if bathing is not performed, bathing is not optional.

FOR LION CUTS:

We do not shave past the elbows and hocks due to the increased risk of trauma on the bony parts of the limbs. You have the option to shave the mane either long or short and if you would like the tail left alone or shaved to the "traditional lion cut" look (poof to the end)

Please describe in detail if you have any additional concerns/requests:

Although accidents are very rare, there is a risk when dealing with pets. Grooming equipment is sharp, and although we use extreme caution and care in all situations, possible problems could occur including cuts, nicks, scratches, quicking of the nails, etc. In most cases this can happen when a pet is wiggling or moving around. Should sedation be needed to complete the grooming process, I authorize the staff at Kewaskum Veterinary Clinic to sedate my pet at my expense. Sedation allows the pet to be more comfortable for the procedure, especially if they have extensive matting of their hair coat which can pull and cause pain during the cutting and grooming process. Other pets may not cooperate and be still for the grooming or due to stress, pain and/or other reasons. We may try other protocols to see if the pet can learn to be still for the procedure but sedation may be necessary and more humane so the pet is not afraid or painful. All anesthetic procedures are performed by licenced veterinarian technicians. When was the last time _____ ate? _____

If the pet is matted, all mats will be removed. Severe matting or brushing can cause areas of dermatitis, irritation, brush-burn, nicks, and cuts, and can be tedious and stressful to the animal. Kewaskum Veterinary Clinic cannot be held responsible for any injury occurring during process. If a doctor at Kewaskum Veterinary Clinic determines that the injuries should be medically treated, all expenses incurred will be charged to the client. I understand and accept that some risks may be present during tests, treatments, and/or anesthesia and that I am encouraged to discuss any concerns I have about those risks with the attending Veterinarian and staff. I agree to assume financial responsibility and provide payment via cash, credit card, or check. I have read fully and understand the terms and conditions set forth above. While I accept that all procedures will be performed to the best of the abilities of the staff at the Kewaskum Veterinary Clinic, Inc. I understand that no guarantee or warranty has been made regarding the results that may be achieved.
